

Part Number: 8848v.

8848v Zero Client for VMware

Compact Virtual System

Our 8848v Zero Client is designed to deliver secure, uncompromised performance to the end user whilst ensuring that IT Departments only have one desktop to manage. This device offers fast boot-up speeds, low energy consumption of just 12 watts and a low total cost of ownership for a price that is akin to much lower performing devices. As an added bonus we provide our FREE Enterprise 10ZiG Management Console which makes managing and maintaining them a stress free experience. Full support for the latest VMview environment.

By choosing a 10ZiG Zero Client you can be sure that your demanding end users will receive rich multimedia playback, multiple monitor support, HD Audio and multiple USB peripheral ports.
